DECOLAC SYSTEM

Our lacquered colours contain hardening additives making them highly resistant to wear and tear.

DECOWOOD SYSTEM

Marine board protected against external agents with natural oils that maintain the texture and look of the natural wood.

4D HINGES

110° opening hinges in titanium colour with three-dimensional adjustment and soft close system.

DECOBUILD SYSTEM

Furniture made with 19 mm boards cleverly glued to create a clean look with no visible hardware. Durable and hard wearing.

DECOPULL

Integrated handle with an ergonomic half-moon shape that mimics the shape of the fingertips, allowing for optimal and comfortable grip.

ATELIER SYSTEM

Marine board finishes use selected pieces maintain the continuity of the grain throughout the furniture.

DECOWOOD SYSTEM

Marine board protected against external agents with natural oils that maintain the texture and look of the natural wood.

Olympia

Features and Equipment	28
Customize your Olympia furniture	30
Wall-mounted washbasin bases	31
Wall-mounted modules	33
Atelier Accessories	70

DECOSPACE SYSTEM

System that includes the supply of a space-saving siphon and a polished chrome click clack valve. This solution avoids the caving of the upper drawer improving storage capacity and aesthetics interior with hidden pipes.

DECOFIX SYSTEM

High security wall fixing system with a load bearing strength greater than 240 kg.

4D DRAWERS

Hettich or Blum metal drawers finished in a gloss anthracite with an extra-thin 12 mm profile and 4 adjustment settings. The guides can be fully extended and have a progressive soft close.

DECOIN ANTHRACITE FULLCOLOR

All the interior parts of the furniture are finished in anthracite grey. Where the furniture is lacquered on the outside, the inside anthracite finish is also lacquered.

DECOBUILD SYSTEM

Furniture made with 19 mm boards cleverly glued to create a clean look with no visible hardware. Durable and hard wearing.

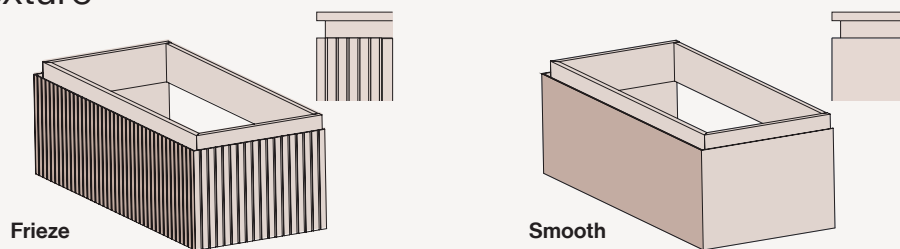

DECOLAC SYSTEM

Our lacquered colours contain hardening additives making them highly resistant to wear and tear.

ATELIER SYSTEM

Marine board finishes use selected pieces maintain the continuity of the grain throughout the furniture.

DECOWOOD SYSTEM

Marine board protected against external agents with natural oils that maintain the texture and look of the natural wood.

Glasscolor

Features and Equipment	34
Customize your Glasscolor furniture	36
Wall-mounted washbasin bases	37
Wall-mounted modules	41
Atelier accessories	70

DECOSPACE SYSTEM

System that includes the supply of a space-saving siphon and a polished chrome click clack valve. This solution avoids the caving of the upper drawer improving storage capacity and aesthetics interior with hidden pipes.

DECOFIX SYSTEM

High security wall fixing system with a load bearing strength greater than 240 kg.

4D DRAWERS

Hettich or Blum metal drawers finished in a gloss anthracite with an extra-thin 12 mm profile and 4 adjustment settings. The guides can be fully extended and have a progressive soft close.

DECOIN ANTHRACITE FULLCOLOR

All the interior parts of the furniture are finished in anthracite grey. Where the furniture is lacquered on the outside, the inside anthracite finish is also lacquered.

DECOBUILD SYSTEM

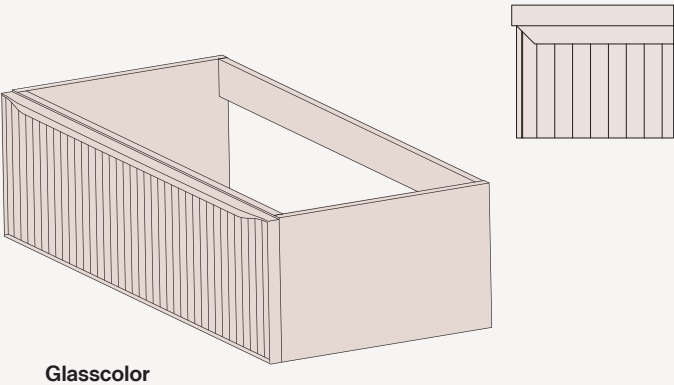

Furniture made with 19 mm boards cleverly glued to create a clean look with no visible hardware. Durable and hard wearing.

DECOLAC SYSTEM

Our lacquered colours contain hardening additives making them highly resistant to wear and tear.

DECOSPACE SYSTEM

System that includes the supply of a space-saving syphon and a polished chrome click-clack valve. This solution avoids the caving of the upper drawer improving storage capacity and aesthetics interior with hidden pipes.

DECOFIX SYSTEM

High security wall fixing system with which the load resistances are greater than 240 kg.

CAJONES 4D

Hettich or Blum metal drawers in a gloss anthracite colour and extra-thin 12 mm profile with 4 adjustment settings. The guides can be fully extended and have a progressive soft close.

DECOIN ANTHRACITE FULLCOLOR

All the interior parts of the furniture are finished in anthracite grey. Where the furniture is lacquered on the outside, the inside anthracite finish is also lacquered.

DECOBUILD SYSTEM

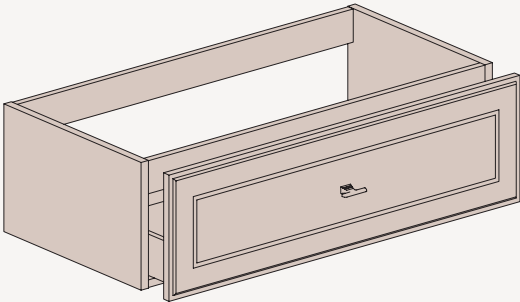

Furniture made with 19 mm boards cleverly glued to create a clean look with no visible hardware. Durable and hard wearing.

DECOLAC SYSTEM

The lacquered colours contain hardener additives that allow the final finish to be highly resistant to rubbing and abrasion.

The Queens collection makes things easy. To personalise your furniture all you need to do is choose the colour and handle.

ATELIER SYSTEM

Marine board finishes use selected pieces maintain the continuity of the grain throughout the furniture.

DECOWOOD SYSTEM

Marine board protected against external agents with natural oils that maintain the texture and look of the natural wood.

Alma

Features and Equipment	64
Customize your Alma furniture	66
Wall-mounted washbasin bases	67
Wall-mounted modules	69
Atelier accessories	70

DECOSPACE SYSTEM

System that includes the supply of a space-saving siphon and a polished chrome click clack valve. This solution avoids the caving of the upper drawer improving storage capacity and aesthetics interior with hidden pipes.

DECOFIX SYSTEM

High security wall fixing system with a load bearing strength greater than 240 kg.

4D DRAWERS

Hettich or Blum metal drawers finished in a gloss anthracite with an extra-thin 12 mm profile and 4 adjustment settings. The guides can be fully extended and have a progressive soft close.

DECOIN ANTHRACITE FULLCOLOR

All the interior parts of the furniture are finished in anthracite grey. Where the furniture is lacquered on the outside, the inside anthracite finish is also lacquered.

DECOBUILD SYSTEM

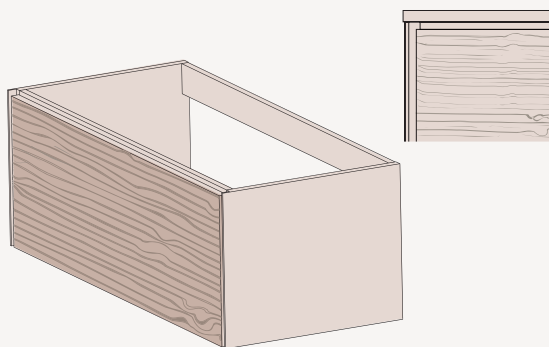

Furniture made with 19 mm boards cleverly glued to create a clean look with no visible hardware. Durable and hard wearing.

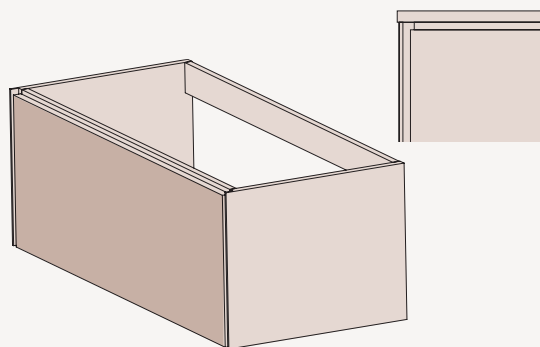

DECOLAC SYSTEM

Our lacquered colours contain hardening additives making them highly resistant to wear and tear.

Configure the furniture

In all Play layouts you can choose two structure options.

Front

The handle overlaps the structure of the furniture.

Side

The sides of the furniture are seen as a decorative terminal.

- Recommended format when the units are against a wall
- When there is more than one level to the unit, only the side panels are visible

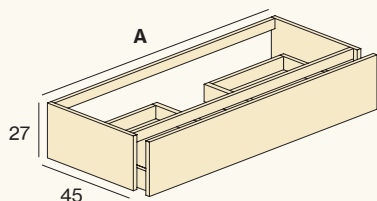

Drawer front and handle are the same colour

If you want the handle to have a different colour this can be specified on request

SOLIDCOLOR

Colored Solid Surface.
Based on Solid Surface, during the production process a colored enamel is applied and vitrified in a kiln to achieve a compact, non-porous, antibacterial surface with a silky touch. Solidcolor is available in our full color range and can be customized in any RAL color. Solidcolor has been developed to respond to new color trends and offers a monochromatic appearance.

MARINE PLYWOOD BOARD

Multilayer board of Phenolic glues with excellent dimensional stability and resistance to humidity. Available with various finishes including natural Oak, rustic Oak and Walnut. The finish is achieved using natural oils that enhance the beauty of the wood and protect it against general wear and tear.

DECOLACK

Coating applied over a high-density fiberboard in multiple layers, achieving a continuous and seamless finish. The result is a colored surface of extraordinary hardness, available in matte or high-gloss finishes, offering exceptional aesthetic value. Available in any RAL or NCS color.

NATURE WOOD

Decorative finish applied to particle-boards allowing multiple colours and finishes with excellent properties. This finish is highly resistant to scratches and general wear and tear.

CERAMICS

A clay substance paste with a compact structure that undergoes a series of firing processes to achieve a smooth glass like effect known as vitrification. This material provides a beautiful and highly resistant, easy to clean surface.

CERAMCOLOR

High performance coloured enamel based on nano particles with high antibacterial properties, non-porous and with great mechanical resistance, stains and chemical agents. It is applicable on porcelain and compact stone

Countertops

MATERIALS

Countertop with Standard Integrated Sink	92
Countertop with Customised Integrated Sink	96
Countertop Sink	100

Flat Countertops	106
Countertop Accessories	110

SOLID WOOD

100% natural Oak laminated in strips from 8 to 15cm. The finished product has a beautiful natural Oak look that is protected with natural oils to create a tough and hard-wearing finish.

SOLID MINERAL (MINERALSOLID)

Material composed of natural mineral fillers and resins. The entire piece is coated with a matt or shine finish coating.

ALUCOLOR

Aluminium as an innovative material in integrated bathroom countertops. A lightweight, ultra-thin concept with an industrial aesthetic that offers extraordinary visual appeal, as it can be produced in any color. The material's high hardness and durability, combined with its easy cleaning, make it a functional solution of great aesthetic value that aligns with concepts of sustainability and environmental respect.

CRISTALCOLOR

Totally transparent optical glass that is colored and vitrified in the oven. Thermoformed sinks are achieved in ovens at high temperatures, achieving a sink with a progressive fall, matte texture and silky touch.

NATURAL STONE

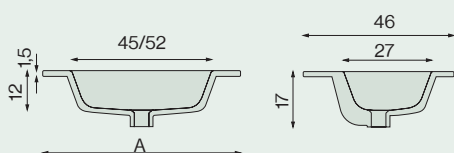

A new synthetic material that provides a smooth and uniform surface. Its white ceramic colour makes it ideal for bathroom furniture. It is warm to the touch, easy to clean and is extremely durable.

SOLID SURFACE (CRISTALPLANT)

Solid Surface is a last generation material where two thirds is made up of natural minerals and BIO based corn-based resin. The end product is a non-porous, antibacterial material that is silky and warm to the touch. Its structure and composition mean it can be repaired.

MIRRORS WITH ANTI-mist

You can equip the mirror with an anti-fog system. A thermal foil adhered to the rear of the mirror will prevent the condensation of water on the mirror, improving the comfort of use and the perfect reflection of the mirror.

MIRRORS WITH COLD LIGHT AND / OR WARM

You can customise your mirror with the colour temperature you want, warmer or colder, from 3000°K to 5500°K. You can even equip your mirror with a touch sensor that will allow you to change the colour temperature, be it warm, neutral or cold.

Mirrors

Standard	114
Smooth / Custom made	115
Rear Backlight / Custom made	116
Front Backlight	118
Metal Framed - Front Backligh	120
Complement your mirror	122

MIRRORS WITH SENSOR ON / OFF

This option will allow you to turn the mirror on / off and change the light intensity if you need it with a light pressure on the touch sensor.

SCREEN SYSTEM WITH SENSOR ON / OFF

Technology allows us to replicate your mobile screen in the mirror. With this, you can easily reproduce all the contents of your mobile, such as videos and photos, in the mirror. Compatible with IOS and Android.

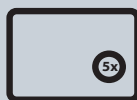

MIRRORS WITH BLUETOOTH

You can link your mobile to the mirror by bluetooth and enjoy your music in the bathroom.

ANTI-MIST SENSOR

ON / OFF sensor for anti-fog sheet.

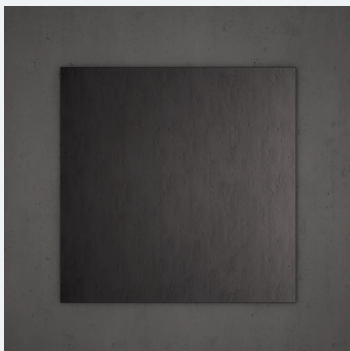

MAGNIFYING MIRRORX5 LED

You can customise your mirror with a x5 magnifying mirror with integrated LED

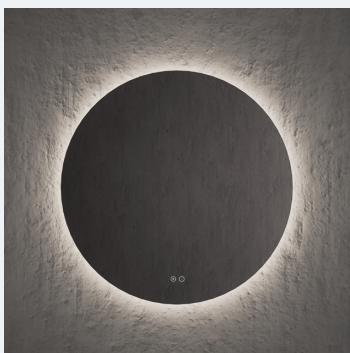

MOBILE MAGNIFYING MIRROR

You can equip the mirror with a magnetized x3 mirror that allows you to place it in the right area of the mirror and adjust its height position or store it in the furniture.

LUMENS

LUMENS

Lumens tell us how much light is given off and is measured in lumens. More lumens equals a higher light intensity. According to the general lighting codes, there are two lighting requirements for a bathroom.

- The area of the sink cabinet. For makeup or shaving, a minimum of 300 lumens is recommended. Around 700 lumens is ideal to help general bathroom lighting. If the lighting is also neutral (4000°K), it helps to prevent skin colours from being altered.
- The transit area. Ceiling spotlights have to provide us with a soft general light. Around 200-300 lumens per m² is recommended.

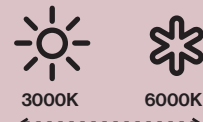

TYPE OF LIGHT

LED lighting is long lasting, low consumption and heat emission and quickly gets to its full intensity. A driver device is needed to operate the LED that is often built-in to the fixture.

CONSUMPTION

The power consumption of the LED light is measured in watts (W). Less watts equals lower consumption. The watts are not related to the light intensity which is measured in lumens or luxes.

COLOUR TEMPERATURE

This refers to the tone of the light and is expressed in Kelvin (°K). A warm shade that is more yellowish is lower in Kelvin at around 3000K and a cool shade that is whiter is between 5000-6000K. Neutral tones are around 4000°K.

PROTECTION

The IP protection refers to the level of protection against water and dust offered by the fixture. IP20 or IP44 is generally suitable for indoor installations and IP65 has a higher degree of protection suitable for some.

PUSH AND SLOW SYSTEM

The drawers with our Push Handleless system can be opened by pressing at any point on the front of the drawer. The closing system is smooth and silent.

DECOIN ANTHRACITE FULLCOLOR

All the interior parts of the furniture are finished in anthracite grey. Where the furniture is lacquered on the outside, the inside anthracite finish is also lacquered.

DECOLAC SYSTEM

Our lacquered colours contain hardening additives making them highly resistant to wear and tear.

DECOWOOD SYSTEM

Marine board protected against external agents with natural oils that maintain the texture and look of the natural wood.

HANGING SECURITY SYSTEM DISCHARGE 150 KG

Columns and cabinets have a safety hanging system with a load bearing capacity of 150 kg.

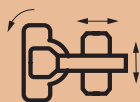

Auxiliary

Columns	130
Cabinets	131
Shelves	132
Towel racks	134
Auxiliaries Atelier	135

DECOBUILD SYSTEM

Furniture made with 19 mm boards cleverly glued to create a clean look with no visible hardware. Durable and hard wearing.

4D HINGES

110° opening hinges in titanium colour with three-dimensional adjustment and soft close system.

ATELIER SYSTEM

Marine board finishes use selected pieces maintain the continuity of the grain throughout the furniture.

INTERIOR SHELVES CRYSTAL

6 mm thick interior glass shelves. When the cabinets is glass, the shelves have a smoked grey finish.

CUSTOMISED

Custom manufacturing. In the case of non-standard sizes of height or width use the next size up to calculate the price.

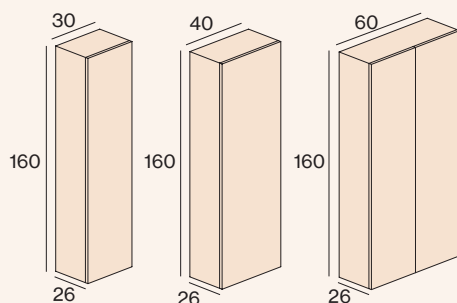

PUSH DOORS WITHOUT HANDLE

Column and cabinet doors have our push ejection system that can also be used as a door holder.

Terms of sale

The following conditions are valid for the sales of products from Artesanía Baño, SL-DECOSAN. The issuance of orders by the buying company implies acceptance of the current conditions of sale. Any modification of these conditions will be subject to written approval by Artesanía Baño, SL-DECOSAN.

Prices

Prices do not include VAT or other taxes. Catalog prices may be modified without prior notice and are valid according to the current rate on the day of dispatch.

Taxes

Charged in invoice in accordance with current legislation.

Payment commitments must be made in cash according to the agreed credit conditions and as established in Law 16/2009 of November 13, on payment services.

Payment conditions

Until the appropriate classification and risk is granted, all operations will be paid by advance payment.

Successive operations

The deferral of payment of our invoices will be agreed between both parties. Once the agreed maturities have elapsed, we are automatically authorized to account for late payment interest at the rate of ONE PERCENT per month or fraction.

The installments pending invoicing always expire immediately when the buyer is declared insolvent, if bankruptcy or bankruptcy proceedings are filed, if your company is disposed of or if there is a change in ownership.

In the event of non-compliance with the payment conditions and / or return of the negotiated effects, Artesanía Baño, SL-DECOSAN will fully reimburse the return expenses and administration expenses, considering the conditions agreed with the client as canceled (due to non-compliance) and giving up the pending effects.

Domain reservation

The merchandise is considered property of Artesanía Baño, SL / DECOSAN until full payment of the same by the client, with Artesanía Baño, SL / DECOSAN until that moment reserved the domain.

Jurisdiction

This relationship will be governed by Spanish law. In the event of any dispute, the parties expressly waive any other forum or jurisdiction to which they may be entitled and agree to submit to the Barcelona courts.

Orders

All orders must be formalized by written document. Essential for special manufacturing:

- Attach a sketch with the measurements of the requested product.
- Pay 50% of the amount at the time of acceptance of the order. The rest will be paid according to the agreed conditions.
- Prices do not include installation or supposed running.

Warranty

It is certified that all products are guaranteed for two years due to manufacturing defects under normal conditions of use and installation, according to Royal Legislative Decree 1/2007 of November 16, the company committing itself to repair or replace the materials whose anomaly is due to these causes.

The right to compensation for damages is excluded (whatever the fundamental legal act accepted) unless it is reliably demonstrated that we had responded with premeditation or gross negligence. The warranty does not cover defects caused by misuse, deficient or improper installation, or defects caused by causes of force mayor.

Design

Artesanía Baño, SL-DECOSAN reserves the right to carry out without prior notice any modification of articles in any area of technical, aesthetic or valuation characteristics.

Delivery term

The approximate delivery time is 3 weeks for standard catalog items and 4 weeks for those that are subject to any modification that will be special unless another delivery time is specified for manufacturing or planning reasons.

Any delay in the agreed delivery times does not entail. There is a right to compensation for damages or other causes.

Goods transport

- When the merchandise travels properly, Artesanía Baño, SL / DECOSAN is exempt from any possible defects or defects that could be attributable to the transportation of the merchandise.

- When the merchandise travels prepaid, the client has to notify Artesanía Baño, SL / DECOSAN in writing within 24 hours of receiving the merchandise, of any defect or defect attributable to the transport agency to facilitate the claim of responsibility in accordance with Law 16 / 1987 of Land Transport Management and RD 1,111 / 1990 by which the LOTT regulation is approved.

- The claim against the carrier for damage or breakdown must be made in the act of receipt of the packages as long as the damage is apparent and within 24 hours of receipt, if the damage is not apparent, the protest or reservation must be made in writing.

- Goods always travel at the buyer's risk and expense, even in the case of special agreements.

- Carriage paid:

to Peninsula from € 250.

to Balears from € 500.

to the Canary Islands from € 1,500.

to Ceuta y Melilla, shipping costs consult.

The price of postage is € 15. In the case of individual dispatch of countertops, mirrors or sinks that require special packaging, the minimum size it will be € 30 net.

Returns

Returns will be accepted only and exclusively for defective goods and / or wrongly sent by Artesanía Baño, SL / DECOSAN.

Any return must always be communicated in writing and authorized by Artesanía Baño, SL / DECOSAN

The return of the merchandise must be made in the original packaging and in perfect condition and will suffer a minimum automatic depreciation of 15% on the amount invoiced for management and storage expenses, which may be higher after inspection.

Breaks

It is the recipient's obligation to check the packaging and the product upon receipt. In the case of observing any incident at the time of download, note the incident on the delivery note and send a written communication to Artesanía Baño, SL / DECOSAN accompanied by some photographs.

In the event that no visible defect is detected at the time of the download, note on the delivery note "compliant with the examination" and carry out this verification within a maximum period of 24 hours, proceeding if it is appropriate to send the claim in the same written conditions and with images that allow assessing the incident. If the corresponding procedures are not followed, the company will not attend any claim in this regard since the transport coverage declines any responsibility according to Law 16/1987 of Land Transport Management and RD 1,111 / 1990 by which the LOTT regulations are approved.

Confidentiality and data protection

In compliance with the provisions of Organic Law 15/1999 of December 13, Protection of Personal Data and REGULATION (EU) 2016/679 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of April 27, 2016 (GDPR), the data of Personal nature provided by the buyer will form part of the seller's file, whose purposes are the maintenance of the contractual relationship, sales management and collections. The seller will treat these data with the utmost confidentiality and undertakes not to use them for a purpose other than that for which they have been collected, as well as to be kept with the measures that guarantee their security to unauthorized third parties. The buyer has the right of access, rectification and cancellation by sending a written communication to Artesanía Baño, SL / DECOSAN Ctra. Laureà Miró, 385-387 - 08980 Sant Feliu de Llobregat, Barcelona or by email to rgpd@nofer.com.
